Who We Are: the longer version

Here at ShootProof, we empower photographers to focus on what matters most. As a small team of photographers, developers, engineers, perfectionists, and customer service fanatics, we work to give our photographers a beautiful platform with which to share and sell their work. Our belief is that photographers' sales are the result of their hard work, so we allow them to set their own prices and keep 100% of their profits: we've never charged a commission-fee and are proud to say we never will.

Because we listen to our photographers and strive to build long-lasting relationships, our services go well beyond client proofing and print sales; we provide invoicing, contact management, and mobile apps, and we deliver top-notch customer service. We believe in simple, intuitive design and freedom of choice for photographers. Tens of thousands of photographers in over 30 countries are now sharing and selling millions of photos with ShootProof. We continue to strive to be the most supportive service available for our clients and the online hub for photography businesses around the world. (177 words)
